

Alumni Opportunities in Uganda (Short & Medium Term)

Description: We get various emails from USP alumni who are interested in coming back to Uganda to serve in some capacity. While we cannot remotely predict what your experience will be like with the following organizations, we trust you to research these sites and plan realistically (based on all your Faith and Action wisdom!). We have personal connections with some of the following organizations, so if you have a question about a specific opportunity, feel free to email and we'll let you know what we know.
